

HOW TO FILL YOUR

Sheaffer's BALLPOINT

To replace ballpoint unit, unscrew barrel, remove old unit, insert new unit and reassemble barrel to cap.

USE ONLY SHEAFFER'S
"C" UNITS

HOW TO FILL YOUR

Sheaffer's PENCIL

Turn cap clockwise until metal rod appears at point. Then turn back completely . . . insert lead . . . press lead gently against hard surface to engage clutching mechanism.

ALWAYS USE SHEAFFER'S
FINELINE LEADS AND ERASERS

HOW TO OPERATE YOUR NEW

Sheaffer's SNORKEL® PEN

Because Sheaffer's Snorkel Pen is so new and different, it is important that you read these brief directions carefully before filling. By following them you'll enjoy the trouble-free service and writing smoothness that is traditionally Sheaffer's.

AND HOW TO OPERATE YOUR NEW

Sheaffer's TIPdip PEN

This is another advanced-design pen by Sheaffer. It is a new pen development, and should be filled as shown in the TIPdip directions to enjoy the full benefit of its convenience.

GUARANTEE

For a period of one year from date of purchase, Sheaffer guarantees to replace without charge, except for transportation and insurance, any parts which upon factory inspection are found to be defective.

INSTRUCTIONS

FIVE EASY STEPS FOR PROPER FILLING • SHEAFFER'S SNORKEL PEN

• Unscrew plunger knob . . . using gentle forward pressure on knob while turning. **UNSCREW UNTIL DEFINITE "CLICK" IS FELT.** Filling tube is now fully extended.

• Hold filling tube over ink bottle and pull plunger out as far as it will go.

• Immerse only the filling tube in ink. It is not necessary to "dunk" the pen point. However, on **FILLING** of new pen the first time, the tip of point should be moistened in ink.

• Now push plunger all the way down *just once*. Keep the tube in the ink a few seconds as your Snorkel Pen "drinks the ink."

• Screw plunger knob to right and watch filling tube retract. Because the point and barrel never touch ink, there's no wiping needed—you're ready to write!

IMPORTANT

Your Snorkel pen is precision made. It is not necessary to dismantle your pen in ordinary usage and you may damage it if you attempt to do so.

Keep the barrel and point section (see below) screwed tightly together.

FOR BEST RESULTS

always use

SHEAFFER'S
Skrip

Top-well bottle makes filling easy . . . uses *all* of the ink. SKRIP cleans and protects the inner parts of the pen.

THREE EASY STEPS FOR PROPER FILLING

SHEAFFER'S TIP-DIP PEN

1

Unscrew plunger knob of pen . . . pull out plunger to full length.

2

Immerse only the tip of point in ink to cover heart-shaped hole in pen point . . . as shown.

3

Push plunger all the way down *just once*. Wait . . . count ten slowly as pen fills full. Screw plunger knob back on barrel and your pen is ready to write. Note that Sheaffer pens fill on the *down* stroke.
